### OMEGA-CAMDEN COPPER BASE PRICE NOTICE

TO OUR CUSTOMERS:

Since the last copper base price update letter of April 30<sup>th</sup>, 2012, the price of copper and equities have plummeted. Copper has fallen through key support levels as the market searches for bottom. The political and economic uncertainties out of Europe have forced many risk takers to the sidelines as they wait for more stable conditions to reenter the commodities game.

World copper inventories in exchange warehouses decreased by 127.14 million pounds (Comex - 18.42), (LME - 70.55), and (Shanghai - 38.17).

Effective with shipments of May 16, 2012, and until further notice, the Omega-Camden copper base price will be \$ 382.00 per cwt.

As always, we will continue our regular review of the copper and metal markets and will keep you informed of developments.

Sincerely yours,

Geoff Kent
